

Holcomb's Do It Yourself and Save Fescue 5 Step Lawn Program

Holcomb Garden Center's 5 Step Lawn Program using Fertilome products will guarantee you one of the best lawns in your neighborhood!

Invest a little time and save a lot of money!

Step 1 FEBRUARY

Start your lawn off right with this premium slow release food plus the best weed and crabgrass preventer available.

Step 2 APRIL

Keep your grass going with this premium slow release food, plus Weed-Out to control growing weeds.

**Apply to damp lawn and do not water for 48 hours.*

Step 3 JUNE

Slow release food to keep your lawn looking good for the summer, plus stops the second generation of crabgrass.

Step 4 SEPTEMBER

Give your lawn the root feeding it needs after a long hot summer. Great for established lawns and newly seeded lawns.

Step 5 NOVEMBER

This application acts like antifreeze for your lawn and other plants. Works great on trees, shrubs, roses, and perennials.
